**Taylor: Senate Vote Proves Regulatory Reform
Not a Partisan Issue**

Columbus – Lt. Gov. Mary Taylor today issued the following statement regarding the 32 to one vote in the Ohio Senate in support of S.B. 2, legislation establishing CSI Ohio: the Common Sense Initiative:

“Eliminating barriers to job growth in Ohio is neither a Republican nor Democrat issue; it’s a common sense issue,” Taylor said. “It is encouraging to see members of the Ohio Senate support CSI Ohio and allow us to begin the process of cutting through the red tape and eliminating burdensome, costly and duplicative rules and regulations. This will improve our business community’s ability to put their job-creating ideas into action and help revive Ohio’s economy.”
